Introduction

Empactathon is an exciting and innovative 48-hour-long virtual hackathon being organized by CoSoG Nepal where high school students unite to create innovative solutions to address sustainable development goals and win some exciting prizes. This event aims to harness young minds' creativity, passion, and coding skills to develop impactful solutions addressing real-world challenges.

With a focus on environmental sustainability, health, and education, Empactathon provides a platform for students to collaborate, innovate, and showcase their talents in a supportive and dynamic environment. By participating in Empactathon, students will not only enhance their technical abilities but also contribute to meaningful change in their communities, fostering a new generation of tech-savvy problem solvers dedicated to making a positive impact.

Empactathon focuses on four crucial sustainable development goals:

- Good Health & well-being (SDG #3)
- Quality Education (SDG #4)
- Gender Equality (SDG #5)
- Climate Action (SDG #13)

About Us

Cosog Nepal, also known as Coding for Social Good, is a student-driven non-profit organization founded in November 2022. Based in Kathmandu, Nepal, we are dedicated to revolutionizing computer science education nationwide. Our primary focus is enabling students to initiate and manage Computer Science clubs in secondary and high schools across remote areas, creating a vibrant community of young tech enthusiasts.

Our work extends beyond education; we are deeply involved in charitable coding initiatives, contributing to Nepal's digitalization. As a bridge between traditional values and modern technology, we are uniquely positioned to foster a blend of learning and innovation for social good, placing us at the forefront of Nepal's technological advancement and educational transformation.

Vision

- Empower students through technology.
- Foster innovation and sustainable development.
- Create tech-savvy communities for social change.

Mission

- Promote computer science education in schools.
- Facilitate charitable coding initiatives.
- Enhance digital literacy among underrepresented groups.

Our past works:

- **Computer Science in +2:** This virtual event empowered over 75 SEE graduates to make informed decisions about their future academic paths and careers.
- **School outreach events:** Successfully formed computer science clubs in over 20 schools across Nepal promoting group learning.
- **Book Donation Initiative:** Donated seven complete sets of the IOE entrance preparation books (worth Rs. 22,000) to high-achieving low-income students to help them pursue engineering.

About The Event

Since Empactathon is a national-level hackathon, high school students throughout the nation will be a part of this event. We are mainly focusing on students studying in grades 10, 11, and 12 from Nepal who are interested in developing solutions to address global problems.

Event Date: 25th – 27th of July 2024

Time: 48 hours

Venue: Online/Virtual

Registration fee: Free of cost

Team Size: 2–5 members

Expected Number of Attendees: 120

Participants will be developing solutions to tackle the following SDGs:

- Good Health & well-being (SDG #3)
- Quality Education (SDG #4)
- Gender Equality (SDG #5)
- Climate Action (SDG #13)

Event Highlight

To find innovative solutions to achieve SDGs by 2030.

Invite participants to learn and build in teams.

Make participants aware of the climate crisis.

Empower Underrepresented Groups in STEM

Event Schedule

20
JUL

Registration closes

Online team registration for students closes on 20th July 2024 (Shrawan 5th, 2081).

25
JUL

Orientation and Kickoff

Welcome address by the organizers, introduction to COSOG Nepal, and overview of the hackathon's goals. Participants form teams, engage in virtual icebreaker activities, and get to know each other. Introduction to the problem statements, SDGs focus, available resources, and mentorship support. Participants can ask questions and clarify doubts about the hackathon, problem statements, and resources.

26
JUL

Progress and Updates

Quick updates from each team on their progress and any challenges faced. Teams work on their projects, incorporating feedback and refining their solutions.
